

## THE DARTMOUTH 1842 VOL 3

OTTER WAS THE SON of a boatwright who worked in the shipyards of Havnor Great Port. His mother gave him his country name; she was a farm woman from Endlane village, around northwest of Mount Onn. She had come to the city seeking work, as many came. Decent folk in a decent trade in troubled times, the boatwright and his family were anxious not to come to notice lest they come to grief. And so, when it became clear that the boy had a gift of magery, his father tried to beat it out of him..When Seraphim's bastard baby was dead, evidence of paternity would die with it-and any claim for child support. Even Vanadium's stubborn, selfish, greedy, grubbing, vicious, psychotic, evil spirit would have to recognize that all hope of bringing Junior down was lost, and it would at last either dissipate in frustration or be reincarnated..She remained fixated on the card that she had just dealt, and for a while she didn't speak, as though the eyes of the paper knave held her in thrall. Finally she said, "Monster. Human monster." "You can't take much of anything by mouth for a few hours yet," said the nurse. "Nausea is too great a risk. Retching might start you hemorrhaging again." "You may be eating yourself into an early grave, Vinnie, but poor Jacob has murdered his own soul, and that's infinitely worse." By the time this operation concluded and the sulphurous Mr. Cain was brought to some form of justice, Simon might have spent twenty or twenty-five percent of the fee that he'd collected from the liability settlement in the matter of Naomi Cain's death. The attorney put a substantial price on his dignity and reputation..Nevertheless, Thomas Vanadium's hostile ghost, that terrible prickly bur of stubborn energy, wasn't done with Junior yet. Until Bartholomew was dead, the cop's filthy-scabby-monkey spirit would keep coming back and coming back, and it would surely grow more violent..Suddenly Junior intuited the identity of the man in the chair. Beyond question, this was the plainclothes police officer with the birthmark..Looking toward the nearest window, where the wet night kissed the glass, he said, "Lawn sprinklers?" Ferocious pirates, ruthless secret agents, brain-eating aliens from distant galaxies, super criminals hell-bent on ruling the world, bloodthirsty vampires, face-gnawing werewolves, savage Gestapo thugs, mad scientists, satanic cultists, insane carnival freaks, hate-crazed Ku Klux Klansmen, knife-worshiping thrill killers, and emotionless robot soldiers from other planets had slashed, stabbed, burned, shot, gouged, torn, clubbed, crushed, stomped, hanged, bitten, eviscerated, beheaded, poisoned, drowned, radiated, blown up, mangled, mutilated, and tortured uncounted victims in the pulp magazines that Paul had been reading since childhood. Yet not one scene in those hundreds upon hundreds of issues of colorful tales withered a corner of his soul as did a glimpse of Barty's empty sockets. The sight wasn't in the least gory, nor even gruesome. Paul cringed and looked away only because this evidence of the boy's loss too pointedly made him think about the terrible vulnerability of the innocent in the freight-train path of nature, and threatened to tear off the fragile scab on the anguish that he still felt over Perri's death..Junior's breath smoked from him as if he contained a seething fire of his own. He felt a sheen of condensation arise on his face, cold and invigorating..Raising one hand, wiggling the fingers, he said, "Toes, toes, toes, toes, toes." Barty's math and reading skills exceeded those of most eighteen year-olds, but regardless of his brilliance, he was a few days shy of his third birthday. Prodigies were not necessarily as emotionally mature as they were intellectually developed, but Barty listened with sober attention, asked questions, and then sat in silence, staring at the book in his hands, with neither tears nor apparent fear..On this momentous day, however, drawing provided no solace. Frequently, her hands shook, and she could not control the pencil..He threw away his necktie, because in the elevator, on the way down from Renee's-or Rene's--penthouse, and again on the walk back to his apartment, he had scrubbed his tongue with it. On further consideration, he threw away everything that he had been wearing, including his shoes..His severed toe lay across the room, on the white tile floor. It stuck up stiffly, nail gleaming, as if the floor were snow and the toe were the only exposed extremity of a body buried in a drift..He usually ate lunch alone in his office. The room was the size of an elevator, but of course didn't go up or down. It went sideways, however, in the sense that herein Paul was transported into wondrous lands of adventure..This analgesic was among several prescription substances that he had stolen, over time, from the drug locker at the rehab hospital where he once worked. Some he had sold; these he had retained..You struck a discord that can be heard, however faintly, all the way to the farthest end of the universe.....Although Junior felt honor-bound to give Victoria first shot at him, he certainly didn't owe her monogamy. Eventually, when he had shaken off suspicion as finally as he had shaken off Naomi, he would be in the mood for a dessert buffet, romantically speaking, and one éclair would not satisfy..Three doors in the dark hallway: one to the right, ajar, and two to the left, both closed..Maria Elena Gonzalez-no longer a seamstress in a dry-cleaners, but proprietor of Elena's Fashions, a small dress shop one block off the town square-joined Agnes, Barty, Edom, and Jacob on Christmas.Otter said nothing..Mysteriously, on the first day of sunny weather in weeks, the 707 had crashed into Jamaica Bay, Queens, killing everyone aboard. Now, in 1965, it remained the worst commercial-aviation disaster in the nation's history, and because of the unprecedented dramatic television coverage, the story was a permanent scar in Celestina's memory, although she had been living a continent away at the time..Her hands shook, her entire body shook, and in her mind was a hard clatter of fear like the wheels of a roller coaster rattling over poorly seamed tracks..As she commented on each masterpiece, Frieda grew steadily less coherent. She had drunk a few cocktails, the better part of a bottle of Cabernet Sauvignon, and two after-dinner brandies..She was in Paul's arms again, as though by magic, and he ran as fire broke through the cedar-shake shingles and as the roof shuddered under them. Airborne through billowing smoke. Across flames that briefly caressed the soles of his shoes..The hospital room was softly lighted, and shadows roosted on all sides like a flock of slumbering birds..To be useful, anger must be channeled, as Zedd explains with unusually poetic prose in *The Beauty of Rage: Channel Your Anger and Be a Winner* Junior's current predicament would only get worse if he had to telephone Roto-Rooter to extract a musician from the

plumbing..Vanadium arrived and stood beside Junior. His black suit was cheap, but it fit better than Rudy's.. "But the breed is nervous, dear. With a nervous breed, you just never know, do you? The slur faded from his voice in minutes, but he suspected that straining too long to sustain this borrowed vision could result in a stroke or worse..Someone she had known. Someone Celestina, too, might know. He lived in or around Spruce Hills, because Phimie had considered him still to be a threat.. "Forget Barty's tree for a second and imagine that all these many worlds are like stacked slices of Swiss cheese. Through some holes, you can see only the next slice. Through others, you see through two or three or five slices before holes stop overlapping. There are little holes between stacked worlds, too, but they're constantly shifting, changing, second by second. And I can't see them, really, but I have an uncanny feel for them. Watch closely." He liked her face, too. She wore no makeup, and pulled her brown hair back in a bun. Some might say she was mousy, but the only things mousy that Nolly saw about her were a piquant tilt to her nose and a certain cuteness..He suspected the blame lay with his exceptional sensitivity to violence, death, and loss. Previously it manifested as an explosive emptying of the stomach, this time as a purging of lower realms..Zedd endorses self-pity, but only if you learn to use it as a springboard to anger, because anger-like hatred--can be a healthy emotion when properly channeled. Anger can motivate you to heights of achievement you otherwise would never know, even just the simple furious determination to prove wrong the bastards who mocked you, to rub their faces in the fact of your success. Anger and hatred have driven all great political leaders, from Hider to Stalin to Mao, who wrote their names indelibly across the face of history, and who were--each, in his own way--eaten with self-pity when young..The infant Bartholomew was here in San Francisco. He must be found. He must be dispatched. By the time Junior devised a plan of action to locate the child, he was so hot with anger that he was sweating, and he stripped off one of his two pairs of briefs.. "I'll never forget it," Dr. Salk promised. With his attention still on Perri's pictures, he said, "But I'm afraid you give me far too much credit. I'm no superman. I didn't do the work alone. So many dedicated people were involved." After Maria, Bonita, and Francesca had gone, when Agnes and her brothers joined forces to clear the table and wash the dishes, Barty kissed them good-night and retired to his room with The Star Beast..Celestina, standing next to Agnes, put an arm around her waist, as perhaps she had once been in the habit of doing with her sister..Their struggle to put their sorrow into words moved Agnes not because they cared so deeply, but because in the end they were unable to express themselves adequately. Without the relief provided by expression, their anguish grew corrosive. Their lifelong introversion left them without the social skills to unburden themselves or to provide solace to others. Worse, their obsessions with death, in all its many means and mechanisms, had prepared them to expect Barty's cancer, which left them neither shocked nor capable of consolation, but merely resigned. Ultimately, in great frustration, each twin was reduced to fragmented sentences, crippled gestures, quiet tears--and Agnes became the only consoler.. "But I've never seen a case like this. Usually, boils appear on the back of the neck. And in moist areas like the armpits and the groin. Not so often on the face. And never in a quantity like this. Really, I've never seen anything like it." TALES FROM From his early adolescence, Edom was drawn to gardening, taking special pleasure in the cultivation of hybrid roses. He'd been only sixteen when one of his blooms earned first place in a flower show. When his father learned about the competition, he regarded Edom's pursuit of the prize as a grievous sin of pride. The punishment left Edom bedridden for three days, and when he came downstairs at last, he discovered that his father had torn out all the rose bushes..Relieved but still wary, he toured the small house again to be sure doors and windows were locked..He was nearly forty years old, and a life spent fearing nature could not be turned easily into a romance with her. Some nights he still stared at the ceiling, unable to sleep, waiting for the Big One, and he avoided walks on the shore in respect of deadly tsunamis. From time to time, he visited his brother's grave and sat on the grass by the headstone, reciting aloud the gruesome details of deadly storms and catastrophic geological events, but he found that he had also absorbed from Jacob some of the statistics related to serial killers and to the disastrous failures of manmade structures and machines. These visits were pleasantly nostalgic. But he always came with roses, too, and brought news of Barty, Angel, and other members of the family. When Paul sold his house to move in with Agnes, Tom Vanadium settled into Jacob's former apartment, now a fully retired cop but not yet ready to return to a life of the cloth. He assumed the management chores of the family's expanding community work, and he oversaw the establishment of a tax-advantaged charitable foundation. Agnes provided a list of fine-sounding and self-effacing names for this organization, but a majority vote rejected all her suggestions and, in spite of her embarrassment, settled on Pie Lady Services.. "It's what?" asked the detective, for with the exception of his teeth, he was not a self-improved individual..As they moved around the base of the oak from one vantage point to another, people stopped by to reassure Agnes, although never with a word, as though to speak would be to jinx the climb. Maria placed a hand on her arm, squeezed gently. Celestina briefly massaged the nape of her neck. Edom gave her a quick hug. Grace slipped an arm around her waist for a moment. Wally with a smile and a thumbs-up sign. Tom Vanadium, thumb and forefinger in a confident OK. Lookin' good. Hang in there. Signs and gestures, maybe because they didn't want her to hear the quivers and catches in their voices.. "Bullpoo might not be what they say, but it's the worst that we say. And in fact, in this house, bulldoody is preferred." Wonderful. Oh, perfect. So Neddy, a friend of Celestina's, knew that Junior, reputed to be a vicious sadist, had attended this reception under a false name. If Junior really was a sleazy pervert of such rococo tastes that he would be shunned even by the scum of the world, even by the deranged mutant offspring of a self-breeding hermaphrodite, then surely he was capable of murder, too..His breath was warm against her throat: "And I want to go back home to see some faces." From childhood, Celestina was encouraged to be confident that life had meaning, and when she'd needed to share that belief with Dr. Lipscomb as he struggled to come to terms with his experience in the operating room, she'd done so without hesitation. Strangely, however, she herself was having difficulty absorbing these two small miracles..In the gallery windows,

eight of the nine sculptures were so disturbing that many passersby, catching sight of them, blanched and looked away and hurried on. Not everyone can be a connoisseur..Agnes knew now why this prognostication had dismayed rather charmed her: If you dared to believe in the good fortune predicted he cards, then you were obliged to believe in the bad, as well..On the second morning of Barty's illness, Agnes came downstairs and found him at the kitchen table, in his pajamas, happily applying unconventional hues to a scene in a coloring book..As though Amelia Earhart, the long-lost aviatrix, had reached out of her twilight zone and snared the two bits, no tumbling coin glinted in the air above the desk..Although the girl was unable to articulate why she preferred not to have her mother at her side, they all understood the tumult in her heart. She couldn't bear to subject her gentle and proper mother to the shame and embarrassment that she herself felt so keenly and that she imagined would grow intolerably worse in the hours or days ahead, until and even after the birth..Thereafter, he was repelled at the prospect of kissing her, and their relationship fell apart..Undeterred, the girl said, "Not magic. But maybe I can't learn to do that one, ever." "I just wanted everyone to come see the spider, that's all. It was a really, really icky interesting bug." Hers were the most feminine hands he'd ever seen. Slender, soft, prettier than Naomi's. He had no idea what she was talking about..The lawyer's eyes appeared as round as his face. "Aggie, please don't tell me you've started to share Jacob's ... enthusiasms?" Alarm contacts gleamed in the header, but the system wasn't currently activated..Agnes invited everyone to stay for dinner. The pies were no sooner finished than large cook pots, saucepans, colanders, and other heavy artillery were requisitioned from the Lampion culinary arsenal..Junior raised his voice even further: "In those old movies, the Little Rascals." just as Sinatra broke into song again, Junior thought he heard a footstep on the wood floor of the hallway, and the creak of a board. The music masked the sounds of the visitor's approach if, indeed, he was approaching..The previous day, Jacob and Edom had driven back to Bright Beach, to prepare for Barty's arrival. Now they hurried down the back porch steps and across the lawn, as Maria followed the driveway past the house and parked near the detached garage at the rear of the deep property..If that was the bright side, however, it was a piss-poor bright side (no pun intended), because he was still stuck in this men's room with a corpse, and he couldn't stay here for the rest of his life, surviving on tap water and paper-towel sandwiches but he couldn't leave the body to be found, either, because the police would be all over the gallery before the reception ended, before he had a chance to follow Celestina home..The silence in this city of the dead was complete. The night lay breathless, stirring not one whisper from the stationed evergreens that stood sentinel over generations of bones.."It doesn't have to be grand," she said, with a seductive leer, "but if we're going to wait, then the wedding better be soon." He hadn't lied to his mother. She assumed that by some quantum magic, he had regained his sight permanently, and that this came with no cost. He merely allowed her to go to her rest with the comforting misapprehension that her son had been freed from darkness..As if vengeful spirits weren't trouble enough, he had for three years been struggling unwittingly against the terrible power of the minister's curse, black Baptist voodoo that made his life miserable. He knew now why he had been plagued by violent nervous emesis, by epic diarrhea, by hideously disfiguring hives. The failure to find a heart mate, the humiliation with Renee Vivi, the two nasty cases of gonorrhea, the disastrous meditative catatonia, the inability to learn French and German, his loneliness, his emptiness, his thwarted attempts to find and kill the bastard boy born of Phimie's womb: All these things and more, much more, were the hateful consequences of the vicious, vindictive voodoo of that hypocritical Christian. As a highly self-improved, fully evolved, committed man who was comfortable with his raw instincts, Junior should be sailing through life on calm seas, under perpetually sunny sides, with his sails always full of wind, but instead he was constantly cruelly battered and storm-tossed through an unrelenting night, not because of any shortcomings of mind or heart, or character, but because of black magic.."I suppose anyone could fill some empty gelatin capsules with the syrup," said Parkhurst. "But-" "Roll your own, so to speak. Then he could palm a few of them, swallow 'em without water, and the reaction would be delayed maybe.place settings. He returned with them to the kitchen and put them in the lower oven, as though Victoria were using it as a plate warmer..Only one member of the distant funeral party did not disperse toward the line of cars on the service road. A man in a dark suit headed downhill, between the headstones and the monuments, directly toward Naomi's grave..Everyone agreed, and the order was placed when their waiter brought appetizers: crab cakes for Nolly, scampi for Kathleen, and calamari for Tom..She was shaking and so afraid, not thinking clearly, and for a moment she didn't understand what he meant, what he wanted, and then she saw that the window on his side of the car was shattered, too, and that the door beyond him was badly torqued, twisted in its frame. Worse, the side of the Pontiac had burst inward when the pickup plowed into them. With a steel snarl and sheet-metal teeth, it had bitten into Joey, bitten deep, a mechanical shark swimming out of the wet day, shattering ribs, seeking his warm heart..She got out of the cab and stood on the sidewalk in front of the gallery, her legs as shaky as those of a newborn colt..surreptitiously with Junior. He was accustomed to being an object of desire. This night, however, the only lady he cared about was San Francisco herself, and he wanted to be alone with her..The subtle distortions in his vision, which caused lines of type to twist, didn't appear to trouble Barty much otherwise. He moved as quickly and as surely as ever, with his special grace..If Vanadium appeared among these men, Junior would not only puke out the contents of his stomach, but also would disgorge his internal organs, every last one of them, and spew up his bones, too, until he emptied out everything within his skin..Celebration of course, would lead to incarceration and perhaps to electrocution. With Vanadium, the maniac cop, likely to be found lurking under the bed or masquerading as a nurse to catch him in an unguarded moment, Junior had to recover at a pace that his physician would not find miraculous. Dr. Parkhurst expected to discharge him no sooner than the following morning..Commodified fantasy takes no risks: it invents nothing, but imitates and trivializes. It proceeds by depriving the old stories of their intellectual and ethical complexity, turning their action to violence, their actors to dolls, and their truth- telling to sentimental platitude. Heroes

brandish their swords, lasers, wands, as mechanically as combine harvesters, reaping profits. Profoundly disturbing moral choices are sanitized, made cute, made safe. The passionately conceived ideas of the great story-tellers are copied, stereotyped, reduced to toys, molded in bright-colored plastic, advertised, sold, broken, junked, replaceable, interchangeable..Nevertheless, his sense of violation grew as he paced these now songless rooms, mystified and frustrated. On April 19, the unmanned Surveyor 3, after landing on the lunar surface, began transmitting photos to Earth, and when Junior stepped out of his morning shower, he again heard the eerie singing, which seemed to arise from a place more distant, more alien, than the moon..Three equally modest rooms opened off this lounge. Two housed complete dental units, and the third provided cramped office space shared by the receptionist and the doctor..He was in the kitchen at 11:20, spreading frosting on a large chocolate sheet cake while the reverend expertly frosted a coconut-layer job..Even without the dangling cigarette and without the cynical sneer, Nolly had an air of toughness worthy of Sam Spade, largely because the face that nature had given him was a splendid disguise for the sentimental sweetie who lived behind it. With his bull neck, with his strong hands, with his shirt-sleeves rolled up to expose his lovely hairy forearms, he made a properly intimidating impression: as if Humphrey Bogart, Sydney Greenstreet, and Peter Lorre had been put in a blender and then poured into one suit..Their apartment was in a four-story Victorian house that dripped gingerbread, in the exclusive Pacific Heights district. It had been converted to apartments with deep respect for the architecture, years before Wally bought it..To see his newborn baby girl, Barty shared the sight of other Bartys, and he so adored this little wrinkled Mary that he sustained his vision all day, until a thunderous migraine became too much to bear and a sudden frightening slurring of speech drove him back to the comfort of blindness..She whispered then: "You are my little lampion, Barty. You light the way for me."."Frequently, symptoms appear early enough that radiation therapy in one or both eyes has a chance to succeed. Sometimes strabismus-in which one eye diverges from the other, either inward toward the nose or outward toward the temple-can be an early sign, though more often we're alerted when the patient reports problems with vision."..Down the stairs, through the ground floor, quickly, soundlessly, breath held at times, listening for the other's breathing, listening for the softest squeak of rubber-soled shoes, although the hard clack of cloven hoofs and a whiff of sulfur would not have been surprising. At last he went to the kitchen, full circle from the shiny quarter on the breakfast table to the quarter again. No Cain..In this brighter light, he further examined the gallery brochure and discovered Celestina's photograph. She and her sister were not as alike as twins, but the resemblance was striking..He visited the bank in which he maintained a safe-deposit box under the John Pinchbeck identity. He withdrew the twenty thousand in cash and retrieved all the forged documents from the box.."I'd give anything if it hadn't happened," he said earnestly. And now a tortured note wrung wet emotion from his voice"I only wish it had been me who died."..On Friday evening, he had arranged for the drawing of the aces, but he had not stacked the subsequent twelve cards to provide for the selection of four identical knaves at three-card intervals. He'd sat in stunned..When Agnes had asked him to deliver the pies, before she had set out with Joey for the hospital the previous day, Edom had wanted to beg off, but he had agreed without hesitation. He was prepared to suffer every viciousness that nature could throw at him in this life, but he could not endure seeing disappointment in his sister's eyes..As the nurse slapped a bar of lye soap in Celestina's right hand, she turned on the water in the sink..He almost opened the paper atop the quarter before seeing it. Shiny. Liberty curved across the top of the coin, above the head of the patriot, and under the patriot's chin were stamped the words In God We Trust..AS MEANINGFUL AS Jacob's death had been within the small world of his family, Agnes Lampion never lost sight of the fact that there were more resonant deaths in the larger world before 1968 ended and the Year of the Rooster followed. On the fourth of April, James Earl Ray gunned down Martin Luther King on a motel balcony in Memphis, but the assassin's hopes were foiled when, because of this murder, freedom grew more vigorously from the richness of a in martyr's blood. On June 1, Helen Keller died peacefully at eighty-seven. Blind and deaf since early childhood, mute until her adolescence, Miss Keller led a life of astonishing accomplishment; she learned to speak, to ride horses, to waltz; she graduated cum laude from Radcliffe, an inspiration to millions and a testament to the potential in even the most blighted life. On June 5, Senator Robert F. Kennedy was assassinated in the kitchen of the Ambassador Hotel in Los Angeles. Unknown numbers died when Soviet tanks invaded Czechoslovakia, and hundreds of thousands perished in the final days of the Cultural Revolution in China, many eaten in acts of cannibalism sanctioned by Chairman Mao as acceptable political action. John Steinbeck, novelist, and Tallulah Bankhead, actress, came to the end of their journeys in this world, if not yet in all others. But James Lovell, William Anders, and Frank Borman-the first men to orbit the moon-traveled 250,000 miles into space, and all returned alive.."No," Agnes said, shaking loose the grip of irrational fear. "Wait. This is absurd. It's just a card. And we're all curious."..Agnes hoped that the boy would spend a night or two in her room, until he was reoriented to the house. But Barty wanted to sleep in his own bed..He spat on his right thumb, scrubbed the thumb against one of the dried drips on the floor, rubbed thumb and forefinger together, and brought the freshened spoor to his nose. He smelled blood..His mother tried to explain. "It's as if you'd found some great jewel," she said, "and what's one of us to do with a diamond but hide it? Anybody rich enough to buy it from you is strong enough to kill you for it. Keep it hid. And keep away from great people and their crafty men!"..He groaned. "That just doesn't cut it, Mom. If I gotta be blind, I think I should get to say peed off."..Finally Angel dropped and slithered, vanishing under the overhanging bedclothes with a final flurry of yellow socks..A stab of horror punctured Celestina as she failed to repress a mental image of a carnival-sideshow monster, half dragon and half insect, coiled in her sister's womb. She hated the rapist's child but was appalled by her hatred, for the baby was blameless..Avoiding the graveled driveway, on which he was more likely to scuff his freshly polished loafers, he approached the house across the lawn, beneath the moon-sifting branches of a great pine that made itself useless for Christmas by spreading as majestically as an oak..Even though

the detective was on the wrong track, Junior was beginning to feel aggrieved. As any good citizen, he was willing, even eager to cooperate with responsible policemen who conducted their investigation by the book. This Thomas Vanadium, however, in spite of his monotonous voice and drab appearance, gave off the vibes of a fanatic. On the counter beside the bathroom sink stood an open box of BandAids in a variety of sizes, a bottle of rubbing alcohol, and a bottle of iodine. He traveled prairies and mountains and valleys, passed fields rich in every imaginable crop, crossed great forests and wide rivers. He walked in fierce storms when thunder crushed the sky and lightning tore it, walked in wind that skinned the bare earth and sheared green tresses from trees, and walked also in sun-scrubbed days as blue and clean as ever there had been in Eden. The cop had picked up the .22 pistol, using a pencil through the trigger guard, to prevent the destruction of fingerprints. Now that efforts were being made to control the preeclampsia, Dr. Daines had scheduled a series of tests for the following day. He expected to recommend a cesarean section as soon as Phimie's e's blood pressure was reduced and stabilized, but he didn't want to risk this surgery before determining what complications might have resulted from her restricted diet and the compression of her abdomen. Knickknacks and mementos were not to be found anywhere in the house. And until now Junior had seen nothing hanging on the barren walls except a calendar in the kitchen. Desperately trying to collect her wits, Agnes gazed out at the deluged graveyard, where the mournful trees and massed monuments were blurred by purling streams ceaselessly spilling down the windshield. "You're the one who said your cold's just here. Maybe it stays in the kitchen, hoping it'll get a piece of pie." "Oh, yes. When he phoned, Reverend Collins told me all about you and Bartholomew. At the front door, when I asked the boy's name, I already knew it and was just setting up this little trick for you." The funeral director and his assistant were the only people, other than Junior, remaining at the grave. They asked if they might lower the casket or if he would rather that they wait until he was gone. Yet for all his love of reading and of music, events suggested that for mathematics he had a still greater aptitude. Instead of gaping at her as though she had been possessed by an inarticulate demon, Wally urgently fumbled a small box out of his jacket pocket and blurted, "Will you marry me?" Agnes held a smile as best she could, determined that her son's final glimpse of her face would not leave him with a memory of her despair. And like John Kennedy's death, Zedd's passing was cloaked in mystery, inspiring widespread suspicion of conspiracy. Only a few believed that he had committed suicide, and Junior was certainly not one of those gullible fools. Caesar Zedd, author of *You Have a Right to Be Happy*, would never have blown his brains out with a shotgun, as the authorities preferred the public to believe. By ones and twos, the festive crowd eventually deconstructed, but for Celestina, an excitement lingered in the usual gallery hush that rebuilt in their wake. By the time Agnes opened the driver's door and slumped behind the steering wheel, Barty levered himself onto the seat beside her. Grunting, he pulled his door shut with both hands as she jammed the key in the ignition and started the engine. OF THE SEVEN NEWBORNS, none was fussing, too fresh to the world to realize how much was here to fear. holding hands as they watched John Wayne in *The Searchers*, David Niven in *Around the World in 80 Days*. They were so young then, sure they would live forever, and they were still young now, but for one of them, forever had arrived. They knew no one named Bartholomew, and she had never heard the name from him before, but she knew what he wanted. He was speaking of the son he would never see. "Yes, but it's a Catholic hospital, and they offer this option to all unwed mothers-doesn't matter what their religion." No doubt thinking about the land of the big bugs, into which she had pushed Enoch Cain, which was exactly what Barty had suddenly thought about, Angel said, "Honey, this is amazing, it's wonderful, but you've got to be careful." He didn't rely, either, on a sixth sense to detect obstacles or open spaces, which some blind people claimed to have. Sometimes instinct told him that in his path was an object that ordinarily would not have been there; but as often as not, it went undetected, and unless he was using his cane, he tripped over it. The sixth sense was greatly overrated. With his refreshed drink, studying Celestina's photograph in the brochure, Junior returned to the living room. She was as stunning as her sister, but unlike her poor sister, she wasn't dead and was, therefore, an appealing prospect for romance. From her, he must learn whatever she knew that might help him in the Bartholomew hunt, without alerting her to his motive. At the same time, there was no reason that they couldn't have a fling, a love affair, even a serious future together. Besides, Junior was reluctant to kill Vanadium, for real this time, and risk discovering- that the detective's filthy-sabby-monkey spirit would in fact prove to be a relentless haunting presence that gave him no peace. Of course, he also might have shot off his own thumbs as double insurance against being drafted and sent to Vietnam. By mid-March, he had exhausted the possibilities of Bartholomew as a surname. By the time that he shot himself in September, he had combed through the first quarter million listings in the directory in search of those whose first names were Bartholomew. Atop the dead woman, Vanadium's leather ID holder ignited. The identification card would bum, but the badge was not likely to melt. The police would also identify the revolver. Instead, he focused on the hand in the flashlight beam: four long, thin, chalk-white digits bent to the heel; thumb thrust up stiffly, as though Neddy hoped to hitchhike out of the Dumpster, out of death, and back to his piano in the cocktail lounge on Nob Hill. Perri was often fast asleep by nine-thirty, seldom later than ten o'clock while Paul never turned in earlier than midnight or one in the morning. In the later hours, to the reassuring susurrations of his wife's breathing, he returned to his pulp adventures. "Too bad. You might have used that to bargain with." "Be quiet, sugarpie," she said, crossing the bedroom to the door, which stood only slightly ajar. As he was wheeled headfirst into the operating room, Barty raised off the gurney pillow. He fixed his gaze on his mother until the door swung shut between them. With the great tree ninety degrees to his left, he was able to locate the back-porch steps at forty-five degrees. He pointed with the cane, which otherwise he had not used. "The porch?" They ordered martinis, and when Kathleen, perusing a menu, asked her husband what looked good for dinner, he suggested, "Oysters?"

[Tales of a Briefless Barrister Vol I](#)
