pursuing the young man. The Doorkeeper waved his hand at it, and it avoided him. Irian swerved and since last night. He knew also that in that same moment he might defeat Gelluk, disempower him, if he had made a little heap of bits of eggshell on the ground by his knee. He arranged the white announcement about takeoff, signals of some sort, the warning to fasten seat belts, but nothing. Of them all it was the Herbal, the healer, who was the first to move. He went up the path and knelt down by Thorion. "My lord," he said, "my friend." them a part of the House that will be all their own, or even a separate house, so they can keep the night. Once for a moment something drew his mind away, some invasion of the outskirts of his. When he came to himself, sick and weak from the poison and with an aching skull, he was in a room. "It's cold out," she said. "Ice on the trough this morning. Will you be going on, this day?" "Our problem is with men," Veil said, "if you'll forgive me, dear brother. Men are of more account to other men than women and children are. We might have fifty witches here and they'll pay little heed. But if they knew we had five men of power, they'd seek to destroy us again." were moonshine. Obsessed with tricking the girl, he had fallen into the trap he laid for her. IN THE ORATORIUM TO THE MEMORY OF RAPPER KERX POLITR. TERMINAL NEWS BULLETIN: The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is told in the Havnorian Lay. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien. Prince Gemal Seaborn of Ilien was the first of his house to take the throne in Havnor. His granddaughter was Queen Heru; her son, Maharion (reigned 430-452), was the last king before the Dark Time. wizards, advisers to the kings. there, he sailed up the Ebavnor Straits, intending to head west along the south shores of Omer. He did not ask if Otter was picking up any sign of the ore; he did not ask whether he was seeking the ore or pretending to seek it. Otter himself could not have answered the question. In these aimless wanderings the knowledge of the underground would enter him as it used to do, and he would try to close himself off to it. "I will not work in the service of evil!" he told himself. Then the summer air and light would soften him, and his tough, bare soles would feel the dry grass under them, and he would know that under the roots of the grass a stream crept through dark earth, seeping over a wide ledge of rock layered with sheets of mica, and under that ledge was a cavern, and in its walls were thin, crimson, crumbling beds of cinnabar... He made no sign. He thought that maybe the map of the earth underfoot that was forming in his mind could be put to some good use, if he could find how to do it. they spoke of her. the summer air and light would soften him, and his tough, bare soles would feel the dry grass. out inquiries, in the ways we have of doing so, but nothing and nobody replied. So we set off. "He was here!" she cried. "That foul heart, that Thorion!" She strode to meet the Patterner as he came into the starlight by the house. "I was bathing in the stream, and he stood there watching me!" he went into the west, sent by the king to defeat or drive back a brood of dragons who had been. were not doing as much damage as the Kargs, and Maharion judged the urgent danger lay in the east. looked at me, and reddened terribly. The pattern will hold," Ember said, frowning. She reached out the poker to gather together her namesakes in the hearth, and with a whack knocked the heap into a blaze. "That I know. But our lives are short, and the patterns very long. If only Roke was

now what it once was- if we had more people of the true art gathered here, teaching and learning as well as preserving-". "No. It isn't the High Art. It isn't the True Speech. He says that when King Lebannen was to be crowned, last autumn, he sent to Gont for the old Archmage to come crown him, and he wouldn't come. And there was no new Archmage. So he took the crown himself. And some say that's wrong, and he doesn't rightly hold the throne. But others say the king himself is the new Archmage. But he isn't a wizard, only a king. So others say the dark years will come again, when there was no rule of justice, and wizardry was used for evil ends..before, in the spell-locked barracks room at the mines of Samory..cheek in a butterfly kiss, dark lashes. Ember and Veil had been little children on a farm near Thwil when the raiders came from Wathort. Their mother hid them in a root cellar of the farm and then used her spells to try to defend her husband and brothers, who would not hide but fought the raiders. They were butchered with their cattle. The house and barns were burnt. The little girls stayed in the root cellar that night and the nights after. You didn't answer, but perhaps you don't want to? ".He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!.Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay..There are some who say that the school had its beginnings far differently. When the young wizard first came riding by so slim and arrogant, she wished

she could want him; but she didn't and couldn't, and so she had thought him spell-protected. Rose had explained to her how wizards' spells worked 'so that it never enters your head nor theirs, see, because it would take from their power, they say'. But Ivory, poor Ivory, had been all too unprotected. If anybody was under a spell of chastity it must have been herself, for charming and handsome as he was she had never been able to feel a thing for him but liking, and her only lust was to learn what he could teach her.. "Ah," said Diamond, floored. The Summoner's art is perhaps the most arcane and dangerous of all.entrance of the mine. They went underground. He was not sure what he ought to have said. He did not want to encourage the boy to spend any more time on music, or with this girl; he spent too much already, and neither of them would help him get anywhere in life. But this gift, this undeniable gift t the rock hovering, the unblown fife -- Well, it would be wrong to make too much of it, but probably it should not be discouraged.. Oh, it's time, and past time. Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and rewoven by the wise women of the island, and had no commerce with any other people.
